**What are the CARS® and STARS® Series?**

The CARS® and STARS® Series are a comprehensive resource that allows you to identify and teach essential reading comprehension strategies. As the diagram above indicates, the CARS® Series is the assessment component, and the STARS® Series is the instruction component.

**CARS® Series**

The CARS® Series is a diagnostic reading series that allows you to identify and assess a student’s level of mastery for each of 12 reading strategies. It contains a Pretest, Benchmarks, and a Post Test. This ten-level series is designed for students in grades K through 8. The CARS® Series helps teachers place students in the companion STARS® Series for reading instruction and remediation.

**STARS® Series**

The STARS® Series is a prescriptive reading series that provides essential instruction in the same 12 reading strategies as the diagnostic CARS® Series. This ten-level series is also designed for students in grades K through 8. The STARS® Series provides precise instruction in and practice with the strategies students need to master in order to achieve reading success.

---

Book D in both the CARS® and STARS® Series features the following 12 reading strategies:
- Finding Main Idea
- Recalling Facts and Details
- Understanding Sequence
- Recognizing Cause and Effect
- Comparing and Contrasting
- Making Predictions
- Finding Word Meaning in Context
- Drawing Conclusions and Making Inferences
- Distinguishing Between Fact and Opinion
- Identifying Author’s Purpose
- Interpreting Figurative Language
- Summarizing
How do I get started with the CARS® and STARS® Series?

As shown in the diagram on page 4, the CARS® Series is used to diagnose the needs of the class, monitor students’ progress, and assess students’ mastery of the strategies. The STARS® Series is used to instruct the class in targeted reading strategies, based on the diagnosis from the CARS® Series.

To get started, use the following steps:

1. Diagnose
   Administer the Pretest in the CARS® Series to diagnose the needs of the students in your class. (See the CARS® teacher guide for additional information.)

2. Instruct
   With One or More Strategy Lessons
   Based on the results of the CARS® diagnosis, assign students one or more strategy lessons in the STARS® Series to remediate specific areas that need improvement and reinforcement.
   Each strategy lesson can be completed in five 30–45 minute sessions.

   With All 12 Strategy Lessons
   Or, have students complete an entire STARS® student book in order to build and reinforce their basic knowledge of all 12 reading strategies. (See the Suggested Pacing Chart on page 9 for assigning all 12 strategies in the CARS® and STARS® Series.)

   For information about differentiating instruction, see pages 7 and 10–11.

3. Benchmark
   Use the five Benchmarks in the CARS® Series and the Review Lessons in the STARS® Series (see page 7) to monitor students’ progress.

4. Assess
   Use the Post Test in the CARS® Series and the Final Review in the STARS® Series to assess mastery of the strategies taught in the STARS® Series (see page 7).

Why do the CARS® and STARS® Series concentrate on 12 reading strategies?

The reading strategies in these series were based on reviews of the following:
- State standards and tests across the nation
- Current research on reading comprehension
- Gaps in basal or core reading programs

The strategies in both series cover a range of areas that lead to success in reading comprehension:
- Literal comprehension
- Inferential comprehension
- Text structure and organizational patterns
- Vocabulary and concept development
- Metacognitive strategies

Practice in these reading strategies leads to success on state tests as well as improves students’ overall reading comprehension.

How do researchers define the relationship between skills and strategies?

According to Regie Routman (2000), strategies are the thinking, problem-solving processes that the learner deliberately initiates, incorporates, and applies to construct meaning. At this point, the reading strategies become instinctively incorporated into one’s reading.

According to Afflerbach et al. (2008), when a reading strategy becomes effortless and automatic, the strategy has become a skill. Reading skills operate without the reader’s deliberate control or conscious awareness.
What is in the STARS® student book?

Strategy Lessons
Each student book contains 12 strategy lessons, one lesson for each reading strategy. Each ten-page lesson provides instruction and practice in the targeted reading strategy. Students read several passages and answer 16 strategy-based selected-response (multiple-choice) questions. The strategy lessons are scaffolded, providing a gradual release of support. Each lesson moves from modeled instruction to guided instruction to modeled practice to guided practice to independent practice. (See Features of a STARS® Lesson on pages 12–23 for more information about the strategy lessons.)

Review Lessons
A four-page review lesson follows every three strategy lessons. Students read two longer passages and answer 12 selected-response questions that focus on the target reading strategies in the three previous lessons.

Final Review
A twelve-page final review gives practice in all 12 reading strategies. Students read four longer passages and answer 48 selected-response questions that focus on all the reading strategies in the book.

What is the reading level of the passages in the STARS® student book?
The reading passages in each STARS® student book lesson are at or below reading grade level, as determined by Flesch-Kincaid Readability Statistics. For example, no passage in Book D (grade 4) is above a reading level of 4.9.

What is in the STARS® teacher guide?

Overview
Information about using the CARS® and STARS® Series and the Curriculum Associates Classroom Reading System, including:
- Suggested Pacing Chart
- Features of a STARS® Lesson
- Research Summary
- Reproducible Strategy Bookmarks

Lesson Plans
Six-page guides for each STARS® student-book lesson, including a facsimile of each student-book page with correct answers, teacher tips, and these special features:
- ELL Support
- Genre Focus
- Teacher’s Corner
- Reteaching
- Connecting with Literature

Reproducible Answer Form
A reproducible bubble sheet that students may use to record their answers to Parts Two–Five of each lesson

Completed Answer Form
A filled-in bubble sheet that may be used for correction purposes
How can I provide differentiated instruction using the STARS® Series?

There are two easy ways to provide differentiated instruction in the classroom using the STARS® Series.

By Reading Strategy

Use the results from the Pretest in the CARS® Series to diagnose the individual needs of the students in your classroom.

Then use STARS® Book D to provide targeted instruction in one specific strategy or in several strategies to remediate areas that need improvement and/or reinforcement.

Or, you may wish to provide instruction using the entire STARS® Book D to build students’ basic knowledge of all the reading strategies.

By Reading Level

Students in the same classroom are likely to be reading at different skill levels (below grade level, at grade level, or above grade level). You can use the leveled books in the STARS® Series (Books K–H) to meet this need.

To enable this type of differentiated instruction, the sequence of the strategies and the page numbers across the books in the STARS® Series are the same from lesson to lesson (with some exceptions in Books K–C). So all students in the classroom receive the same reading-strategy instruction but work with appropriately leveled reading passages.

For example, some fourth-grade students may work in the on-level Book D, which contains reading passages that don’t extend beyond a fourth-grade reading level. At the same time, other students in the class may be assigned an above-level book, while other students may be assigned a below-level book.

How can I assess students’ progress in the STARS® Series?

After students have been placed into the STARS® Series, based on the diagnosis from the CARS® Pretest, several methods may be used to assess students’ progress in the STARS® Series.

You may use classroom observation to monitor and informally assess students’ mastery of the strategies taught in each STARS® lesson.

You may also use the following to formally assess students’ mastery of the strategies:

STARS® Review Lessons

A review lesson follows every three strategy lessons. Each review lesson may be used to assess students’ mastery of one, two, or all three of the strategies covered in the review.

STARS® Final Review

The final review may be used upon completion of the strategy lessons to assess students’ mastery of all 12 reading strategies.

CARS® Benchmarks

These five tests may be used throughout instruction in the STARS® student book (after the CARS® Pretest and before the CARS® Post Test) as individual progress-monitoring tools to monitor students’ progress in applying all 12 reading strategies. You may space out the Benchmarks to best meet your classroom needs.

CARS® Post Test

The Post Test may be used upon completion of the STARS® strategy lessons to assess students’ overall mastery of all 12 reading strategies. The results of the CARS® Post Test may be compared with the results of the CARS® Pretest to assess students’ mastery of the reading strategies.
What instructional features in the *STARS® Series* can be helpful for students, especially ELL students?

The *STARS® Series* uses several effective instructional procedures that support all students, including:

- Opportunities to activate prior knowledge before beginning strategy instruction
- Explicit instruction in key English language concepts
- A step-by-step scaffolded approach, beginning with explicit instruction, to build a clear understanding of the reading strategies
- Opportunities to build and reinforce self-esteem
- Use of graphic organizers to visually depict the reading strategies
- Frequent reviews and restatements of concepts
- Allowances for students to work at their own pace
- Ample practice through a variety of high-interest reading passages
- Presentation of selections depicting real-life situations
- Encouragement of paired-learning experiences
- Student discussion of strategies to demonstrate conceptual understanding

In addition to these supports, the teacher guide also provides minilessons on English language topics that may be challenging for ELL students (called ELL Support). See pages 12–13 of this teacher guide for an example.

Where do students record their answers?

Students may record their answers to Part One on a separate piece of paper or directly in their student book. The answers to Part One are discussed during partner or all-class discussions. Students may record their answers to Parts Two–Five on the reproducible Answer Form (on pages 106 and 107 of this teacher guide) or directly in the student book.

What is the correction procedure?

For best results, correct each part of the strategy lesson orally with students immediately following its completion. Explain concepts that students do not understand. Encourage students to participate in a discussion about the targeted strategy and how to apply it in everyday life experiences.

What are the Strategy Bookmarks?

The Strategy Bookmarks are a set of reproducible bookmarks for each of the strategies taught in the *STARS® Series*. You may wish to distribute the appropriate bookmark after students have completed each strategy lesson. The bookmarks serve as a helpful reminder, highlighting the essential points about the strategy that students have learned in the lesson.

Suggest that students use the bookmarks to support their application of the strategy to grade-level text, especially when completing the Connecting with Literature activity (see pages 22–23 for an example of this feature).

How much time is required to complete the *CARS®* and *STARS® Series*?

The *CARS®* and *STARS® Series* are designed for flexibility in the classroom and can be used effectively in several ways to fulfill your classroom needs.

The Suggested Pacing Chart on page 9 reflects the use of the *CARS®* Pretest, Benchmarks, and Post Test as well as the 12 *STARS®* strategy lessons, the review lessons, and the final review. You can adapt the Suggested Pacing Chart as needed to accommodate the actual number of strategy lessons you instruct. Which lessons you teach and how you choose to allocate the times are up to you, depending on the needs of your students.
Lesson 4

RECOGNIZING CAUSE AND EFFECT

1

LESSON OBJECTIVES
Students will learn to:
• Recognize cause and effect by understanding what happens and why in a reading passage
• Identify when test questions are asking them to recognize cause and effect

2

GETTING STARTED
Introduce the Strategy
Tell students that today they will learn how to recognize cause and effect when they read.
SAY: Good readers know how to recognize cause and effect in a reading passage by thinking about what happens and why it happens. You already know about causes and effects because they are part of your daily life. Whenever you understand why something happens, you are recognizing a cause and its effect.

Model the Strategy
Introduce the strategy by describing a situation and asking students to think about what is happening.
SAY: Suppose you stay up late on a Friday night watching movies with your friend. The next day you feel very tired. Why are you so tired?
Point out to students that they feel tired because they stayed up late and didn’t get enough sleep. Guide students to understand that staying up late is the cause, and feeling tired the next day is the effect. The cause led to the effect. Explain that this is an example of recognizing cause and effect.

3

ELL Support
Suffixes
Explain to students that many English words have suffixes. A suffix is a group of letters added to the end of a word to change the word’s meaning.
Work with students to show how the meaning of a word changes with a suffix. Write the word fearless on the board. Ask students if they can identify the suffix (-less) and the base word (fear). Explain to students that the suffix -less means “without.” Tell students that adding the suffix -less to fear changes its meaning to “without fear.”
Point out the suffix -less in flightless on student book page 40. Explain how the suffix -less changes flight to mean “without the ability to fly.”

4

Genre Focus
Journal Entry
Tell students that on page 41, they will read a journal entry. Define this genre for students. Explain that a writer’s journal is a record of events and personal thoughts about the events in that person’s life. A journal entry is a piece of writing that focuses on a moment in time during the writer’s life. Sometimes the writer describes his or her feelings, makes an observation, or tells a private thought about the events that happened on a certain day. The date the entry is written is included somewhere on the entry, usually at the top. Have students share journal entries they may have read.

Recognizing Cause and Effect

This 12-page section guides teachers through a sample lesson plan from the teacher guide. Each lesson plan contains facsimiles of the student book lesson. Numbered boxes call out and describe the key features in both the teacher guide and the student book.
Lesson Objectives: Presents two strategy-related goals for students to achieve as they complete the lesson.

Getting Started: Introduces the strategy to students and models how good readers use the strategy when reading.

- Scripted text provides a model for using the strategy in a real-world scenario to tap students’ background knowledge.
- A familiar context builds students’ confidence for interacting with the strategy.

ELL Support: Targets a language concept that students may need reinforcement with.

- The language concept is briefly defined. The teacher then guides students through examples and tells them where they will encounter the concept in the upcoming lesson.

- Language concepts in the series include:
  - compound words
  - prefixes
  - suffixes
  - contractions
  - homophones
  - possessives
  - multiple-meaning words
  - regular and irregular plurals
  - regular and irregular past tense verbs
  - comparatives and superlatives

Genre Focus: Previews key characteristics of a specific genre.

- Understanding a genre can aid students’ comprehension of a reading passage.

- Genres in the series include:
  - biography
  - journal entry
  - myth
  - fable
  - science fiction
  - poem
  - folktale
  - letter to the editor
  - e-mail
  - blog
  - science report
  - history article

Management Tips

- Where possible throughout the lesson, use visuals. For example, write the target strategy on chart paper for easy reference.
- Use the scripted text to help students see how they already use the strategy in their everyday lives.
- To aid ELL students, use explicit instruction, and allow time to practice new concepts. Observe students closely to make sure they understand the concepts. Whenever possible, “show” the concepts through modeling, pantomime, and visual examples.
- Point out examples of the featured language concept in other classroom work.
- Share classroom books that showcase the featured genre.
Features of a STARS® Lesson

Modeled Instruction

PART ONE

Lesson 51: Recognizing Cause and Effect

What is Cause and Effect?

1. Write what happened if you overslept on a school day.
   Sample response: My dad has to drive me to school.

2. Write why this happened.
   Sample response: Because I missed the school bus.

AT A GLANCE

Students activate their background knowledge about recognizing cause and effect and then learn how to apply this strategy to a short reading passage.

STEP BY STEP

Page 38

- Tell students that today they will practice recognizing cause and effect.
- Read aloud the information at the top of the page.
- Direct students to respond to items 1 and 2.
- Discuss student responses as a class.

Work with a Partner

- Organize students to work in pairs to complete the Work with a Partner activity.
- Encourage volunteers to share their examples of cause and effect with the class.

Tip: If students have trouble thinking of examples, have them complete “____ because ____” sentences. In the first part, they think of an event that happened (I got drenched). In the last part, they tell why (it was raining).

Page 39

- Read aloud the information that precedes the reading passage.
- Direct students to read the passage in the box.
- Tell students that after they read the passage, they will use a graphic organizer to help them recognize a cause and effect in the passage.
- Guide students through steps 1–4 for completing the graphic organizer by having them follow along as you read the steps aloud.
- Direct students to complete the information in the Effect box of the graphic organizer at the bottom of the page.
- Discuss student responses.
- Be sure students have a clear understanding of how to find the cause and its effect in the passage.

Tip: If students have difficulty completing the sentence in the Effect box, have them reread the last paragraph in the passage. Ask, “What will Jake and Marcus have to do because Jake left the map at the last place they stopped to rest?” Explain to students that the answer to this question is the effect.

Recognizing Cause and Effect
**Student Book**

1. **Introduction:** Describes the strategy. Open-ended questions prompt students to explore what they already know about the strategy from their daily lives.

2. **Work with a Partner:** Gives student partners the opportunity to discuss ways to use the strategy.

3. **Reading Passage:** Provides the opportunity for students to work with the strategy in the context of real-world reading.

4. **Steps:** Guides students through completing the strategy-based graphic organizer.

5. **Graphic Organizer:** Visually depicts how to apply the strategy.

**Teacher Guide**

6. **At a Glance:** Provides a brief overview of what students do in each lesson part.

7. **Step by Step:** Provides an explicit walk-through of the steps for guiding students through each lesson part.

8. **Tip:** Provides additional information for the teacher to assist student partners as they discuss the strategy in the Work with a Partner activity.

9. **Tip:** Provides additional information for the teacher to assist students as they complete the strategy-based graphic organizer.

**Modeled Instruction**

**Teacher Led**

After prompting students to tap into their prior knowledge, the teacher uses step-by-step examples to model how to use the strategy, with the support of a strategy-based graphic organizer.

**Management Tips**

- Personalize examples so they make sense for your students. Draw on your own experiences and your knowledge of your students to make sure examples are relevant.
- Plan carefully when grouping students for the Work with a Partner activity. Consider skill levels, social skills, and English language proficiency.
- Circulate and provide tips or encouragement as student pairs work together.
Research Summary

The *STARS® Series* is an instructional program that is solidly grounded in areas of important reading research. Scaffolded strategy-based instruction serves as the organizational framework, while metacognitive strategies foster student self-monitoring and self-assessment. The lessons are carefully planned and sequenced to promote individual understanding and application of reading strategies. With the *STARS® Series*, students build on their capacity to analyze, reason, and communicate ideas effectively by applying specified reading strategies in a variety of contexts. The *STARS® Series* is a comprehensive reading program designed to meet a broad spectrum of individual needs in the classroom. The full research report for this title may be downloaded from the Research Internet page at http://www.casamples.com/downloads/STARS-research.pdf.

<td>Example</td>
<td>Research says . . .</td>
</tr>
<tr>
<td>-----------------------</td>
<td>---------</td>
<td>---------------------</td>
</tr>
<tr>
<td><strong>Explicit Instruction</strong>&lt;br&gt;Students receive explicit instruction of each reading strategy consisting of a definition, a short example passage, and learning objectives.</td>
<td>SB: Books AA–H&lt;br&gt;• In each lesson, Part Two: Learn About the Strategy</td>
<td>Researchers Manset-Williamson and Nelson (2005) explain, “explicit instruction involves the overt, teacher-directed instruction of strategies, including direct explanation, modeling, and guided practice in the application of strategies” (p. 62).</td>
</tr>
<tr>
<td><strong>Genre Instruction</strong>&lt;br&gt;Students receive instruction of genre properties of reading passages which aids in both their recall and comprehension of the passages.</td>
<td>TG: Books C–H&lt;br&gt;• In each lesson, Introduction, Genre Focus</td>
<td>“The instruction of the content and organization of stories thus improves comprehension of stories as measured by the ability of the reader to answer questions and recall what was read. This improvement is more marked for less able readers” (NICHD, 2000, pp. 4–45).</td>
</tr>
<tr>
<td><strong>Graphic Organizers</strong>&lt;br&gt;Graphic organizers are visual displays that help learners comprehend and retain textually important information.</td>
<td>SB: Books AA–H&lt;br&gt;• In each lesson, Part One: Think About the Strategy&lt;br&gt;TG: Books K and AA&lt;br&gt;• Refer to Part One: Skill Development section&lt;br&gt;• In each lesson, Part Four: Build on What You Have Learned, Reteaching feature</td>
<td>“When students learn how to use and construct graphic organizers, they are in control of a study strategy that allows them to identify what parts of a text are important, how the ideas and concepts are related, and where they can find specific information to support more important ideas” (Vacca &amp; Vacca, 2005, p. 399).</td>
</tr>
<tr>
<td><strong>Listening Comprehension</strong>&lt;br&gt;Development and mastery of listening comprehension on the meaning level is one of the first stepping stones in learning how to read.</td>
<td>Series: &lt;br&gt;• Book K uses listening activities and a selected few reading activities to teach reading strategies. &lt;br&gt;• Books AA–H use both listening and reading activities, including the “shared reading” strategy to teach reading strategies.</td>
<td>“Teachers should emphasize text comprehension from the beginning, rather than waiting until students have mastered “the basics” of reading. Instruction at all grade levels can benefit from showing students how reading is a process of making sense out of text, or constructing meaning” (Armbruster &amp; Lehr, 2001).</td>
</tr>
<tr>
<td><strong>Multiple-Strategy Instruction</strong>&lt;br&gt;Students are taught that more than one cognitive strategy may be used to gain meaning from text. Strategies such as comparing and contrasting and making predictions work together to make text meaningful.</td>
<td>SB: Books C–H&lt;br&gt;• After every third lesson, and at the end of each book, Review and Final Review sections</td>
<td>“Skilled reading involves the coordinated use of several cognitive strategies. Readers can learn and flexibly coordinate these strategies to construct meaning from text” (NICHD, 2000, pp. 4–77).</td>
</tr>
<tr>
<td><strong>Prior-knowledge Activation</strong>&lt;br&gt;These are learning activities that stimulate knowledge that comes from previous experiences.</td>
<td>SB: Books AA–H&lt;br&gt;• In each lesson, Part One: Think About the Strategy&lt;br&gt;TG: Book K&lt;br&gt;• In Part One: Skill Development section&lt;br&gt;• Lesson Opener, Getting Started section</td>
<td>“Several meta-analyses and reviews of the research have found that direct, explicit instruction in such specific strategies as summarizing, identifying text structure and visual clues, calling on prior knowledge, and using graphic organizers improves students’ reading comprehension” (Biancarosa, 2005).</td>
</tr>

Lesson 4

RECOGNIZING CAUSE AND EFFECT

★★★★ LESSON OBJECTIVES

Students will learn to:
• Recognize cause and effect by understanding what happens and why in a reading passage
• Identify when test questions are asking them to recognize cause and effect

★★★★ GETTING STARTED

Introduce the Strategy

Tell students that today they will learn how to recognize cause and effect when they read.

SAY: Good readers know how to recognize cause and effect in a reading passage by thinking about what happens and why it happens. You already know about causes and effects because they are part of your daily life. Whenever you understand why something happens, you are recognizing a cause and its effect.

Model the Strategy

Introduce the strategy by describing a situation and asking students to think about what is happening.

SAY: Suppose you stay up late on a Friday night watching movies with your friend. The next day you feel very tired. Why are you so tired?

Point out to students that they feel tired because they stayed up late and didn’t get enough sleep. Guide students to understand that staying up late is the cause, and feeling tired the next day is the effect. The cause led to the effect. Explain that this is an example of recognizing cause and effect.

ELL Support

Suffixes

Explain to students that many English words have suffixes. A suffix is a group of letters added to the end of a word to change the word’s meaning.

Work with students to show how the meaning of a word changes with a suffix. Write the word fearless on the board. Ask students if they can identify the suffix (-less) and the base word (fear). Explain to students that the suffix -less means “without.” Tell students that adding the suffix -less to fear changes its meaning to “without fear.”

Point out the suffix -less in flightless on student book page 40. Explain how the suffix -less changes flight to mean “without the ability to fly.”

Genre Focus

Journal Entry

Tell students that on page 41, they will read a journal entry. Define this genre for students. Explain that a writer’s journal is a record of events and personal thoughts about the events in that person’s life. A journal entry is a piece of writing that focuses on a moment in time during the writer’s life. Sometimes the writer describes his or her feelings, makes an observation, or tells a private thought about the events that happened on a certain day. The date the entry is written is included somewhere on the entry, usually at the top. Have students share journal entries they have read or heard.
How Do You Find Cause and Effect?

Many reading passages include examples of cause and effect. You can find causes and effects by thinking about what happens in a passage and why.

Read this passage about Marcus and Jake. Think about the things that happen and why they happen.

Marcus and Jake were hiking along a mountain path. They came to a fork in the trail, and they didn’t know which way to go.

“Look at the map,” said Marcus to Jake. Jake checked his pockets and his backpack, but he couldn’t find the map.

“I left it at the last place we stopped to rest. We’ll have to go back to find it,” said Jake.

1. Let’s find an example of cause and effect in the passage.
   What happened? (effect)
   Why did it happen? (cause)
   Marcus and Jake didn’t know which way to go on the trail.
   Jake couldn’t find the map.

2. Let’s find another example of cause and effect in the passage.
   Cause
   Effect
   Jake left the map at the last place he and Marcus stopped to rest.
   Jake and Marcus will have to ___________________________ _________________.
   Jake couldn’t find the map.

Recognizing Cause and Effect

AT A GLANCE

Students activate their background knowledge about recognizing cause and effect and then learn how to apply this strategy to a short reading passage.

STEP BY STEP

Page 38

• Tell students that today they will practice recognizing cause and effect.
• Read aloud the information at the top of the page.
• Direct students to respond to items 1 and 2.
• Discuss student responses as a class.

Work with a Partner

• Organize students to work in pairs to complete the Work with a Partner activity.
• Encourage volunteers to share their examples of cause and effect with the class.

Tip: If students have trouble thinking of examples, have them complete “____ because ____” sentences. In the first part, they think of an event that happened (I got drenched). In the last part, they tell why (it was raining).

Recognizing Cause and Effect
Recognizing Cause and Effect

AT A GLANCE

Students learn how to recognize cause and effect when they read. Students then practice the strategy by thinking about what happens and why it happens, using any available clue words, to answer questions about a passage.

STEP BY STEP

Page 40

- Introduce the lesson by reading aloud the information in the What to Know box.
- Tell students that together you will read a passage and talk about how good readers can recognize causes and effects in a passage.
- Have a volunteer read aloud the passage.
- Direct students to follow along as you read the information under the passage.
- Ask students to circle in the passage what happened (the effect) and underline why it happened (the cause). Then have them identify the clue word. 
- Conclude the lesson by reviewing the concepts in the What to Know box.

Tip: Have students underline the sentence in the passage that they used to answer question 1.

(Because I like to paint, my parents thought I would enjoy seeing van Gogh’s work.)

Then have students circle the clue word (Because).

Tip: Have students underline the sentence in the passage that they used to answer question 2.

(My parents had to drag me away because I was having such a good time.)

Then have students circle the clue word (because).

Point out that in the underlined sentence for question 1, the cause is stated before the effect, but in the sentence for question 2, the effect is stated before the cause.
### Modeled Practice

**Recognizing Cause and Effect**

**PART THREE: Check Your Understanding**

#### REVIEW

Read this silly poem. As you read, ask yourself, “What are some things that happen in the poem?” Why do these things happen? Then answer the questions.

**Modeled Practice**

**Recognizing Cause and Effect**

**Which Answer Is Correct and Why?**

Look at the answer choices for each question. Read why each answer choice is correct or not correct.

#### 3. Why did the silly girl want to sleep on a feather bed?

- **She knew that feathers were soft.** This answer is correct because the girl thinks to herself, "Feathers are light and soft as a breeze. I'd sure like to sleep on a bed made of these!"
- **She had a dream about feathers.** This answer is correct because the girl had a dream of sleeping on a big feather bed, not a dream about feathers.
- **Her friend had a feather bed.** This answer is correct because the friend had a feather bed, so she spread feathers on a flat rock.
- **She had pains in her knees.** This answer is correct because the pains in the girl’s knees are caused by lying on the hard rock. Having pains in her knees was the reason for her wanting to sleep on a feather bed.

#### 4. The silly girl wanted to sleep on a bed of feathers, so she

- **bought a mattress made of feathers.** This answer is not correct because the girl does not buy a mattress of any kind.
- **plucked feathers off a goose.** This answer is not correct because the goose does not pluck feathers off a goose.
- **slept on a dock covered with feathers.** This answer is not correct because the dock is not covered with feathers.
- **spread feathers on a flat rock.** This answer is correct because the effect is stated directly in the poem (she spread feathers on a flat rock) after the cause (she wanted to sleep on a bed made of feathers). The clue word is in the poem signals this cause-and-effect relationship.

---

**AT A GLANCE**

Students reinforce their understanding of strategy concepts through reading a passage, answering questions, and discussing why answers are correct or not correct.

**STEP BY STEP**

**Page 42**

- Read aloud the information in the Review box.
- Direct students to read the passage and answer the questions on the page.
- Remind students to use the information in the Review box to help them.

**Page 43**

- Tell students that this page models how to find the correct answers and explains why each one is correct.
- Share the correct answers.
- Then read aloud the explanations for all the answer choices for questions 3 and 4. Solicit questions and comments from the class.

**Teacher’s Corner**

**Recognizing Cause and Effect**

Tip: Work with students to find other causes and effects in the story. For example: Because the bed was so hard, the girl wanted to weep when she tried to sleep. Also, the girl no longer wanted a feather bed because she thought they were hard.

---

In a cause-and-effect relationship, the order in which events are presented in a reading passage doesn’t make a difference. The event that is the cause always happens first, before the event that is the effect.

For example: Tony went shopping for a new suit because his brother had asked him to be the best man at his wedding. Even though the effect is presented first, the cause happened first, resulting in the effect.
Guided Practice

Read this article about a spring holiday. Then answer the questions.

April Fool’s Day

On April 1, people like to play jokes on one another. This day is called April Fool’s Day. No one is sure how this custom to fool people began. Some people think the tradition began in France. Until the mid-1600s there, April 1 had been the first day of the new year. The calendar was changed in 1604. The first day of the new year was moved to January 1. Some people, though, still celebrated New Year’s Day on April 1. Others made fun of them for celebrating the new year on the wrong day. They called these people “April fools.”

When the new year had begun on April 1, people gave gifts to one another. After the new calendar changed New Year’s Day to January 1, some people still gave presents on April 1. But they chose joke gifts. As a result, people came to play jokes on one another on April Fool’s Day.

5. How did people come to play jokes on one another on April Fool’s Day? 
   - They were not allowed to give gifts on this day.
   - They once gave joke gifts to one another on this day.
   - It was a French custom to play jokes on this day.
   - They wanted to act like fools.

6. Which cue word or phrase in the article signals the reason that people play jokes on April 1? 
   - since
   - because

7. When the calendar was changed in 1604, 
   - January 1 became New Year’s Day.
   - April 1 became New Year’s Day.
   - the month of January was dropped from the calendar.
   - people began acting like fools.

8. Why were people called “April fools”? 
   - Before 1564, they celebrated the new year on April 1.
   - They liked to give joke gifts in April.
   - They thought that January 1 began the new year.
   - After 1564, they continued to celebrate April 1 as New Year’s Day.

9. What happened as a result of Sarah’s visit to the woman who claimed she could speak with the dead? 
   - Sarah talked to her dead husband.
   - Sarah began adding on to her house.
   - Sarah ignored the woman’s advice.
   - Winchester rifles were no longer made.

10. Why did Sarah add useless features to her house? 
    - to keep the carpenters busy
    - to anger the spirits of the dead
    - to make the house more mysterious
    - to please tourists

11. Construction on the Winchester House stopped because 
    - the carpenters had finished the job.
    - Sarah couldn’t get any more work done.
    - the house had become a popular tourist attraction.
    - Sarah had died.

12. One reason the Winchester House is a fun place to visit is that 
    - it is haunted.
    - it is unusually small.
    - it has an unusual history.
    - it is the largest house in California.

Recognizing Cause and Effect

5. Sometimes, there are no clue words to signal cause and effect in a reading passage. When there are no clue words, do the following:
   - To find an effect, think about what happened.
   - To find a cause, think about how or why it happened.
   - Think about what you already know about how one thing might cause another thing to happen.

9. “She went to see a woman who claimed . . . must keep adding on to her house.”

10. “To keep them busy, Sarah . . . build useless features.”

11. “Construction on the Winchester House stopped because . . .”

AT A GLANCE

Students are introduced to additional information about recognizing cause and effect, and then they answer questions about two passages.

STEP BY STEP

Pages 44–45

- Read aloud the information in the More to Know box.
- As needed, guide students as they complete both pages.
- Discuss the correct responses as a class.

Tip: Ask students to identify sentences or information in the passages that helped them answer each question:

5: all the information in paragraph 2

6: “After the new calendar . . . As a result, people came to play jokes on one another on April Fools’ Day.”

7: “The calendar was changed in 1564. The first day of the new year was moved to January 1.”

8: “The first day of the new year was moved to January 1. Some people, though, still celebrated . . . called these people ‘April fools.’”

Reteaching

Use a graphic organizer to verify the correct answer to question 8. Draw the graphic organizer below, leaving the boxes blank. Work with students to fill in the boxes, using information from the passage.

Recognizing Cause and Effect

STARS D TG • Curriculum Associates LLC • www.CurriculumAssociates.com • 800-225-0248
Independent Practice

Read this story from Mexico. Then answer questions about the story. Choose the best answer for Numbers 13 and 14.

Twelve on a Bench

One day, the people of Lagos got into a great argument. Finally, they asked the twelve oldest and wisest men of Lagos for their help. The men decided to meet on the bench in the town square to discuss the matter.

Six of the men arrived first. Each man wore a big, wide sombrero. It was a hot day, so the six men took off their straw hats. As they sat down, they put the hats right next to them. The hats took up more space than the men did, so the bench was full. Soon, the other six men came. They tried to sit down, but there wasn’t any space.

“I think the bench has shrunk,” answered one of those sitting.

“Why don’t we try to stretch the bench?” suggested the oldest man.

So the six sitting on the bench arose, put their sombreros on their heads, and got hold of one end of the bench. Then the six standing got hold of the other end of the bench, and each group began pulling the wood as hard as they could.

After some time, they put the bench down.

All twelve men sat down, each with his sombrero on his head. Of course, now the hats took up no space, and there was plenty of room for all.

“Now that we have done a fine job of stretching that bench, we can discuss our problem,” spoke the oldest. So the men of Lagos, feeling very pleased with themselves, went on with their discussion.

13. Why did the first six men take off their hats?
   • They were being polite.
   • Their straw hats were itchy.
   • It was too hot to wear the hats.
   • The other six men asked them to.

14. What happened to the bench as a result of being pulled?
   • The bench became longer.
   • The bench became shorter.
   • The bench stayed the same size.
   • The bench broke in half.
