Curriculum Associates' i-Ready® Diagnostic & Instruction Named Finalist in 2013 SIIA CODiE Awards

*Online diagnostic and instruction program recognized in the Best Mathematics
Instructional Solution and Best Student Assessment Solution categories*

NORTH BILLERICA, Mass., April 8, 2013 – Curriculum Associates' [i-Ready Diagnostic & Instruction](#) was recently named a finalist in the 2013 Software & Information Industry Association (SIIA) CODiE Awards. The award-winning online diagnostic and instruction program was recognized in the Best Mathematics Instructional Solution and Best Student Assessment Solution categories.

"i-Ready provides educators with the essential assessment and instructional tools they need to drive student outcomes in an engaging and effective way," said Rob Waldron, President and CEO of Curriculum Associates. "The recognition from this industry-leading awards program – in both the instructional *and* assessment categories – further validates not only the power of this program, but our ongoing work to provide educators and students with the most robust products available to meet their teaching and learning needs."

Built for the Common Core, i-Ready Diagnostic & Instruction helps students make real gains. It combines a valid and reliable measure and personalized instruction in a single online product that saves teachers time at a fraction of the cost of similar products.

The adaptive diagnostic pinpoints student needs down to the sub-skill level and generates a combination of online instruction and downloadable teacher-led lessons that are unique to each student's diagnostic result. These individualized learning plans are easy to understand and implement. As the program continues to evolve, i-Ready will now include Grade 8 mathematics lessons and, coming this summer, it will include high school diagnostic and real-time progress monitoring at the class, grade, school, and district levels, enabling educators to identify and address individual and group needs in a simple, streamlined way.

The SIIA CODiE Awards are the premier award for the software and information industries and have been recognizing product excellence for 27 years. The awards have more than 75 categories and are organized by industry focus of Content, Education and Software. This year's Education winners will be announced during a special awards dinner at the Ed Tech Industry Summit in San Francisco on May 6, 2013.
