K. Decodable Informative Text Read each part. Answer your teacher's questions and select the picture that goes with each part.

People Need Seas

Part 1

Teacher Reads About 70% of planet Earth's surface is covered by water, including oceans and seas. So, it's not surprising that people use seas in many ways.

People need seas. They sail ships on seas. Some
9 people work on ships. They fill up ships with things
19 people need, such as beans, tea, and wheat. Then the
29 ships sail from land to land. Each day of the week,
40 ships go east and west to get things to people.

Part 2

Teacher Reads Food from seas is an important part of many people's diet (what they eat).

50 People eat things from seas. The main thing people
59 eat is fish. Some fish is fresh. But to get fish from seas
72 to shops, people may freeze the fish to keep it fresh.
83 People can feast on clams, crabs, and bass from seas.
93 Some people eat fish eggs and seaweed. Seaweed is a
103 plant from seas.

©Curriculum Associates, LLC Copying is not permitted.

Part 3

Teacher Reads People need seas for serious reasons, but spending time by seas can be enjoyable, too.

106 At beaches, seas meet land. People can have a fun
116 day at the beach. On land, people can pick up seashells
127 and fill a pail with sand. They can swim in the deep
139 seawater. People can get on ships with sails and go with
150 the wind. In a big breeze, ships pick up speed and go
162 fast. Seas are spots for work and play. It is plain to see
175 that people need seas. Learn More
