One Powerful Program Offers You More
A connected system designed to simplify teachers’ lives and make classrooms more efficient
The Challenge of Reaching Every Student

Teachers want to make the best use of every minute of instructional time and give each child what they need to grow, but planning time is scarce. To have the right instructional plans to reach every student, teachers must:

1. Gather data
2. Analyze data
3. Determine strengths and needs
The Value of Data Connected to Instructional Action

i-Ready gives educators a rich understanding of what instruction each child needs to grow, connected directly to the instructional resources and action they need, making the most out of every lesson.

4 Group students for instruction

5 Gather instructional resources

6 Teach

Dandelions are tough plants. They can grow just about anywhere! These plants might look cute and fluffy, but they have tough plant parts that help them survive.

Dandelions have tough leaves. Each plant has a ring of leaves on the bottom of its stem. The leaves keep the plants from growing too close. This way the dandelion gets plenty of sun, air, and soil. It needs these things to live.
The Challenge of Using Multiple Programs

Multiple programs means many systems to learn, separate streams of data, and instructional resources that require significant time and effort for teachers to connect to data and student needs.

- **Diagnostic Assessment**
  - Cost for Reading
  - Cost for Math

- **Progress Monitoring Tool**
  - Cost for Reading
  - Cost for Math

- **Personalized Online Instruction**
  - Cost for Reading
  - Cost for Math

- **Differentiated Instructional Resources**
  - Purchased, gathered, or created separately

- **Professional Development**
  - Varies per program

Increased Cost and Time
The Value of Many Programs in One

**i-Ready** offers a single platform that reduces complexity, saves time, and helps teachers use data to differentiate their instruction.

> “We went with i-Ready because it gives us two-for-one: an assessment program and an online instruction program. The cost savings were important, but the time it saved our teachers was more important.” —District Administrator, FL

---

**Both Reading and Mathematics**

- **Adaptive Diagnostic**
- **Differentiated Instructional Resources**
- **Personalized Online Instruction**
- **Progress Monitoring Tool**
- **Product Support and Partnership**

---

**One Lower Cost**

The Challenge of Keeping Up with the Evolving Needs of Classrooms

Change is constant for educators—whether it’s state standards, state requirements, educational best practices, or student populations—and a constantly changing landscape means that educational programs must keep up with the needs of classrooms.

“This doesn’t align to the current standards.”

“This doesn’t reflect what matters to my students.”

“This doesn’t look like it matches best practices.”
The Value of
Never Staying Still

We listen to what educators need, we look deeply into what drives student growth, and our long history of continual updates reflects our commitment to making i-Ready better every day.

73% of lessons are new within the last three years

60+ platform updates/year

Nearly 3,000 new assessment items this year

Completely new interfaces for students and educators within the last two years

One Program Does More!

*i-Ready* allows districts to eliminate overlapping assessments and deliver instruction accurately targeted to students’ needs.

### i-Ready Assessment

*can be used by districts for:*

- **Screening and Placement:**
  - Reading and Math General Screener
  - Third Grade Alternative Reading Assessment
  - National Norms for Intervention and Gifted/Talented Identification

- **Intervention:**
  - MTSS/RTI/Intervention Screener
  - Progress/Growth Monitoring

- **Effectiveness Metric:**
  - Accountability
  - High Correlations with State Tests

- **Classroom Assessment:**
  - Automatic Small Group Creation
  - Data for Instructional Planning
  - Data for Student/Teacher/School Goal Setting
  - Data for Sub-Group Analysis
  - Formative Assessment
  - Benchmark Assessment
  - Standards Performance
  - Growth Measures
  - Custom Data Analytics
  - Lexiles®/Quantiles®

### i-Ready Learning

*can be used by districts for:*

- Individualized Online Instruction
- Teacher-Led Differentiated and On-Grade Level Instruction
- Individual and Small Group Differentiated Instruction
- Enrichment Instruction
- Learning Games for Math Practice
- Extensive and Systematic Practice
- Assignable Lessons for Grade-Level Practice
- Progress Monitoring
- Skills Acquisition
